DAN-FORM amongst top 1,000 Successful Businesses in 2020

Today, furniture design and manufacturer DAN-FORM Denmark received an award as a Successful Business (“Succesvirksomhed”) 2020 from BDO and SPAR NORD for its continued growth in the fiscal year 19/20.

The award as a Successful Business is given to SMEs in Denmark who contributes to the continued growth in Danish economy.

CEO in DAN-FORM, Sanne Protin, says; “We are proud to receive this award which again shows that DAN-FORM is a company that is gaining more and more market shares in not only the Scandinavian markets but also the international markets.

We are experiencing continued interest in our concept of supplying furniture at the top end of the medium price point, where customers get a beautiful design and high quality at a reasonable price, and where we on an ongoing basis add new and exciting designs and colours that follow the trends of tomorrow.”

Solid financial result for 19/20

DAN-FORM’s fiscal year 19/20 ended on 30 June 2020 and despite the second half being influenced by the corona virus, the result before taxes was just above 20 mio. DKK, which is just over the result from the year before – a year that saw the best performance financially for DAN-FORM so far.

CEO, Sanne Protin says; “Despite the Corona situation, we have had a strong start to 2020 and our team has worked hard to secure deliveries for our customers across the world.

On top of this, I also believe that the geographical spread of our customers has helped us through the coronacrisis and ensured less of an impact than others have seen.”

She continues; “All in all, we are truly proud to have continued the good growth in both turnover and customer acquisition and we look forward to yet another strong financial year 20/21”.
